original positions
$j = 4$ held (period 34)
$j = 3$ held (period 22)
$j = 8$–11 held
re-rotated
$j = 5$ held (period 51)
s after the opening, sink at its original positions
(a) probe
attention share to the sink
query–sink distance (latent frames)
(b) generation (study 34)
persistence α (1-s)
s after the opening
(c) LongLive (study 35)
s after the opening
